

CELESTINE OKONKWO

Software Engineer

Lagos, Nigeria | +234 912 265 1327 | celestine4321@gmail.com | celestineokonkwo.me | github.com/CeleHub

Software Engineer building across web, mobile, and backend — responsive interfaces in React, Next.js, and TypeScript, cross-platform apps in Flutter and Dart, and the services behind them, currently at GPIT Limited. Also takes on freelance projects for clients, delivered on schedule. First Class Honours graduate in Computer Science, with additional experience in data analysis and cybersecurity.

EXPERIENCE

GPIT Limited — Lagos, Nigeria

Software Engineer (Frontend & Backend)

March 2026 – Present

- Build and ship responsive interfaces across web (React, Next.js, TypeScript, Tailwind CSS) and mobile (Flutter, Dart), from UI implementation through to state and data handling.
- Work full-stack when needed, connecting frontend features to backend services and APIs to get complete features shipped.
- Deliver assigned projects and fixes on schedule as part of an agile engineering team.

Software Engineer, SIWES Intern (Frontend & Backend)

March 2025 – September 2025

- Built frontend features and UI components during a six-month industrial training placement, while getting hands-on with backend logic across the company's stack.
- Assisted the engineering team with bug fixes, testing, and feature implementation on live projects.

NIIT — Lagos, Nigeria

Cybersecurity Intern

August 2024 – Present

- Completed CCNA-aligned training in networking and security fundamentals.

Junior Data Analyst

August 2024 – August 2025

- Completed a certification in data analysis while supporting data-related tasks during the internship.

HNG — Remote

Data Analysis Intern

January 2025 – March 2025

- Carried out data analysis tasks remotely as part of HNG's internship program.

PROJECTS

Personal projects built in 2026, including freelance engagements for clients, delivered on schedule.

CourseFlow — courseflowxi.vercel.app

2026

Next.js · NestJS · TypeScript · Tailwind CSS · PostgreSQL (Prisma)

- Academic management and timetable-scheduling platform with a constraint-based engine that auto-generates conflict-free lecture and exam schedules, plus PDF/Excel export for admins.

OTL WMS — freelance client project (NDA clause, link withheld)

2026

Flutter · Supabase

- Mobile warehouse management system for a motor spare parts distributor, with a double-entry stock ledger, passwordless login, and audit-ready reporting.

MindBridge Chatbot — mindbridgechatbot.vercel.app

2026

React 19 · FastAPI

- AI-powered mental health triage and support platform for university students, pairing a local ML model with an explainable recommendations panel.

EDUCATION

Mountain Top University — BSc Computer Science, First Class Honours

Sept 2023 – Aug 2026

Logos International Secondary School — O-Level

Sept 2015 – Jul 2021

SKILLS & CERTIFICATIONS

Languages: JavaScript, TypeScript, Python, Java, Dart

Mobile: Flutter, Dart (Android & cross-platform)

Frontend (Web): React, Next.js, Tailwind CSS, HTML5/CSS3, Electron

Backend: Node.js, Express, NestJS, FastAPI, Flask, PostgreSQL, SQLite, Supabase

Tools: Git/GitHub, Prisma ORM, Vite

Certifications: CCNA (Cisco), Data Analysis Certification (NIIT)
